

Temporary Powdered Infant Formula Options

As of May 24, 2022, WIC has temporarily added more container sizes and types of powdered formula to help you find formula for your baby during widespread shortages.

Other formula container sizes and types may be available than what is listed on the next page. Please check with your local WIC office, online at MyFamily.WIC.ca.gov, or the California WIC App for the latest updates.

WIC families can temporarily mix and match any of the above formulas up to their full benefit. You can buy more than one kind of formula if it is listed on the previous page. These new choices are larger containers than you normally get. Larger containers will use more of your benefits because they make more formula.

Tips Before You Shop:

- Ask your WIC office how these options work for you.
- Scan the product with your California WIC App to confirm it is the correct item before checking out at the register.
- Shop at WIC approved grocery stores. If you have a problem at the register with the new WIC formula options, talk to a manager before paying.
- **WIC is not able to repay you for formula you choose to buy with another payment.**

If your family was prescribed Enfamil A.R. or Enfamil ProSobee, the following formulas are available:
